

Township of Adjala-Tosorontio

Colgan Community - Wastewater Treatment Plant and Outfall

Class Environmental Assessment Study (Phases 3 and 4)

Notice of Public Information Centre #2

In January 2016, the Township of Adjala-Tosorontio completed the Colgan Master Servicing Plan Amendment, which identified a preferred wastewater servicing solution for approved growth areas in the Community of Colgan. The Master Servicing Plan satisfied Phases 1 and 2 of the Municipal Class Environmental Assessment (Class EA) process for the wastewater projects, which are subject to Schedule C of the Municipal Class EA. Phases 3 and 4 of the Class EA process are now progressing to identify the preferred locations and design concepts for the wastewater treatment plant (WWTP), forcemain and outfall to service the growth areas.

Public Information Centre #2 is being held to present an update on the project, including a new recommended outfall location and its associated forcemain route. Based on comments received from the public and the Township, a new outfall location was identified and evaluated on Bailey Creek at Concession Road 8. This alternative outfall location and its associated forcemain is recommended for the Colgan WWTP Class EA.

Public and agency consultation is vital to the success of this study. To ensure that those interested in this project have an opportunity to provide input to the study team, Public Information Centre #2 will be held as per the details noted below.

Public Information Centre #2

Date: **Wednesday, April 11, 2018**
Time: 4:00 p.m. to 7:00 p.m. (drop-in format)
Location: Public Room
Municipal Offices
Township of Adjala-Tosorontio
7855 Sideroad 30 Adjala

Following Public Information Centre #2, comments are requested by April 25, 2018.

If you wish to submit questions or comments about the project, please contact the consultant project manager:

Mr. Arun P. Jain, P.Eng., M.Eng.
Consultant Project Manager
exp Services Inc.
