PURPOSE OF DEVELOPMENT CHARGES

The general purpose for which development charges are imposed by the Township is to assist in financing the infrastructure and capital projects required to meet the increased need for services resulting from growth and development. Development charge funds may only be used for the purpose for which they were collected.

The Council of the Township of Adjala – Tosorontio passed By-law No. 16-35 on September 12, 2016 under subsection 2(1) of the *Development Charges Act, 1997*, being a By-law for the Imposition of Development Charges.

BACKGROUND STUDY

The *Development Charges Act, 1997* and Ontario Regulation 82/98 require that, prior to the passing of a By-law, a development charges background study is undertaken with reference to:

- The forecasted amount, type and location of future development;
- The average service levels provided in the Township over the 10-year period immediately preceding the preparation of the background study;
- Capital cost calculations for each eligible development charge service; and
- An examination of the long term capital and operating costs for the infrastructure required to service the forecasted development.

Watson and Associates Ltd. prepared the Development Charges Background Study for the Township dated July 13, 2016. The study served as the basis for the development charge rates approved by the Council on September 12, 2016 by By-law 16-35. The new Development Charge rates come into effect on October 1st, 2016
