

## **TOWNSHIP OF ADJALA-TOSORONTIO COLGAN MASTER SERVICING PLAN WATER AND WASTEWATER MASTER PLAN**

### **NOTICE OF ADDENDUM (Revised November 26, 2014)**

The Township of Adjala-Tosorontio is undertaking an addendum to the Master Water and Wastewater Servicing Plan for the Hamlet of Colgan, in order to address the servicing needs of the community over the next twenty (20) years and beyond. This Addendum reflects changes to the Master Servicing Plan resulting from detailed field investigations.

The Schedule 'B' Class EA process is to be completed in accordance with the requirements of the Municipal Class Environmental Assessment (Class EA) process (October 2000, as amended in 2012) and the Municipal Engineers Association (MEA) guidelines. The Schedule 'B' Class EA process includes development, screening and selection of preferred water and wastewater servicing alternatives and the Addendum will complete Phases 1 & 2 of the Class EA process.

Public Consultation is vital to the success of this study. We want to ensure that anyone interested in this project has the opportunity to provide input. Therefore, various forms of public consultation will take place over the course of this study to receive public input and comments. A Public Information Centre (PIC) will be held to present alternative servicing strategies and receive public input. Notice of the PIC will be published in advance of the meeting. At the completion of Phase 2, the Project File Report will be filed for public review.

Project updates and notices will be posted on the Township's website (<http://www.adjtos.ca>) to inform the public of the Class EA Addendum's progress. Residents and interested parties are encouraged to regularly visit the website to find out more about the Study.

If you have any questions or concerns, and/or would like to be added to the study mailing list, please contact one of the study representatives listed below.
