

CORRECTION TO PUBLIC NOTICE

TOWNSHIP OF ADJALA-TOSORONTIO
EVERETT SECONDARY PLAN MASTER SERVICING PLAN
CLASS ENVIRONMENTAL ASSESSMENT SUMMARY REPORT ADDENDUM
REVISED NOTICE OF ADDENDUM COMPLETION

The purpose of this Correction to Public Notice is to provide the correct address for the Minister of the Environment and Climate Change, Ontario for submission of Part II Orders under the Environmental Assessment Act. The Notice of Completion has been revised with this information and provided herein.

BACKGROUND & PURPOSE OF ADDENDUM

On January 24th, 2013, the Township of Adjala-Tosorontio (Township) issued a notice of completion for the Community of Everett Master Servicing Plan (MSP) which addressed Transportation, Stormwater Management, and Water and Wastewater Servicing issues within the study area (see the map provided in this notice) in accordance with the Municipal Class Environmental Assessment (EA) process.

Since the completion of the Everett MSP and a subsequent Schedule 'C' Class EA for the Everett Wastewater Treatment Plant & Surface Water Outfall, additional wastewater conveyance solutions and technologies have come to the Township's attention; specifically, a low-slope gravity sewer system with lot-level pre-treatment. This technology requires proper evaluation against the previously selected Everett MSP wastewater conveyance solution before being considered as a potential servicing solution, in accordance with Environmental Assessment Act.

As such, this Addendum was completed to evaluate the viability of low-slope gravity sewers with lot-level pre-treatment, in accordance with the recommendations of the Class EA process against the previously selected sewage collection and disposal technology.

It should be noted that this Addendum applies only to the wastewater conveyance component of the Everett MSP, and does not affect the recommendations of the MSP (transportation, water or stormwater management) or the Schedule 'C' WWTP & Surface Water Outfall Class EA.

PROCESS

A comparative evaluation was completed between conventional gravity based conveyance technologies and the newly proposed low-slope gravity sewer systems with lot-level pretreatment. This evaluation found that although both options had different advantages and disadvantages, both technologies were equally viable for the purpose of achieving the servicing goals outlined in the Everett MSP preferred sanitary servicing solution

Subject to comments received as a result of this notice, the Township will be able to proceed with the implementation of the recommended Schedule A, A+ and B projects included in the Class EA Master Plan Study Report.

PUBLIC COMMENT INVITED

By this Notice, the Class EA Addendum document which summarizes the planning process undertaken and the conclusions reached as part of this Addendum, will be on public record for 30 calendar days in accordance with Municipal Class EA Guidelines.

The Class EA Addendum Project File and original Community of Everett MSP Class EA Summary Report will be available for review between Thursday January 28th and Friday March 21st, 2016 at the following location:

Address:	Hours:
Township of Adjala-Tosorontio Offices of the Township Clerk and Planning & Development Services 7855 30 th Sideroad, R.R. #1 Alliston, ON L9R 1V1	8:30 a.m. – 4:30 p.m. Monday – Friday

Electronic versions of the documents will also be available on the Township website: <http://www.aditos.ca/>

CONTACT INFORMATION

After reading the Class EA Addendum documentation, interested persons with additional questions or concerns should provide written comments to the municipality within 30 calendar days of this Notice.

Comments should be addressed to:

Jim Moss, Public Works Superintendent,
jmoss@aditos.ca
Telephone: (705) 434-5055, Fax: (705) 434-5051
Township of Adjala-Tosorontio

If major concerns arise regarding this project, which cannot be resolved through discussions with the Municipality, a person or party may request that the Minister of the Environment make an order for the project to comply with Part II of the Environmental Assessment Act (referred to as a Part II Order), before proceeding.

Requests must be received by the Minister at the address below within 30 calendar days of this Notice.

Minister of the Environment and Climate Change, Ontario
The Honourable Glen Murray
77 Wellesley Street West West, 11th Floor
Ferguson Block, Toronto, ON M7A 2T5

In addition, a copy of the request must also be sent to the Township Clerk.

If there is no "request" received by March 21, 2016, the amended Everett Master Servicing Plan Schedule 'B' Class Environmental Assessment will be implemented and will proceed as presented in the planning documentation.

Information will be collected in accordance with the Freedom of Information and Protection of Privacy Act. With the exception of personal information, all comments will become part of the public record.

This notice issued at the Township of Adjala-Tosorontio on January 28th, 2016 (revised February 16th, 2016).
