

Economic Development Funding Application

OVERVIEW – Outdoor Patio Program

It is Council's goal to create provisions to extend the areas for eating establishments to build non-permanent outdoor patios. It is the intent of Staff and Council to reward two local businesses with a total budget of \$5,000 each to assist with the costs for creation of outdoor patio spaces.

Businesses will need to apply to the municipality through the attached form to demonstrate their intent to create outdoor eating areas, while also submitting cost estimates and completion timelines for the creation of these spaces.

The municipality acknowledges the hardships that COVID-19 has imposed on businesses and understands that while cost recovery of lost revenue and additional expenses cannot be achieved, the intent of the Outdoor Patio Program is to provide significant relief.
