PROJECT TITLE (Max. 50 characters)	Concession I	Road 4 Harc	I-Topping - F	Phase 2							
General Location	Twp wide	Ward 1	Ward 2	Ward 3 X	Ward 4	Ward 5		In house Outsource	Х		
PROJECT LOCATION PROJECT DESCRIPTION (Max. 256 characters - attach Word document more description is required)	Hard-top co Adjala. The Scope of wo	nversion of ( hard-topping rk also inclu	existing grav g shall incluc Ides some m	el road includ le additional inor work to	ad Adjala to al ding apron tie- granular base the Bridge ove repairs/replace	ins at the i and a dout r Sheldon (	ntersectio ble surface	on of 25 S e treatme	nt.		
Reason for the Project (Justification)	This project will deliver improved network connectivity by providing Concession Road 4 with a hard top pavement surface extending from Highway 9 to Highway 89. Council approved funding for a phase of Concession Road 4 hard-topping in 2020 with an informal consensus to complete the hard- topping of the remaining gravel-surfaced section in 2021. Note: Surface treatment will perform satisfactorily and is of considerably lower cost than hot mix asphalt.										
		lot proceeding would result in this 1400 metre section of Concession Road 4 remaining gravel- urfaced. Also, Structure 23 would not receive beneficial improvements.									

(Please list proposed 2019 capital spending by quarter for cash flow purposes)

**IMPACT OF NOT** PROCEEDING IN 2021 **Cost of Failure** 

Our One tons are used for all types of maintenance inculding haulage of materials and removal of large roadkill, hauling sign posts to job sites and gabion to culvert jobs they are ecential to many public works operations. Without them our operations would be greatly reduced. The addition of a plow wing and Salt box is a fiscaly responsable solution to the new load restrictions on several of the townships Bridges .Also increasing costs in O&M for equipment repairs and maintenance.

(Justillation)	service safel	y.							

**IMPACT OF NOT PROCEEDING IN 2021 Cost of Failure** 

We have noticed the benefit of these new tanks since purchasing one last year. The new tanks are quicker to fill they are designed to removed easly. They also give us a better applaction for grading operations ... Also increasing costs in O&M for equipment repairs and maintenance for the old tanks.

Replacement of the CAT loader in the Public works South yard.

### **A - PROJECT DETAILS**

**PROJECT TITLE** (Max. 50 characters)

**General Location** 

Replacemen	t Loader						
Twp wide	Ward 1	Ward 2	Ward 3	Ward 4	Ward 5	In house	
Х						Outsource	Х

#### **PROJECT LOCATION** PROJECT DESCRIPTION (Max. 256 characters - attach Word

document more description is required)

**Reason for the Project** (Justification)

This unit will be turning twenty one years old in 2021. It has many maintenance issues inculding: A rotted loading bucket, The main loaderarm pins are damaged, The hydrulic pistons are worn and loose, Valve heads are leaking oil and the transmission is slipping.

**IMPACT OF NOT PROCEEDING IN 2021 Cost of Failure** 

This loader is the only way to load all the plow trucks in the south yard, efficient loading is ecental to our route times .Also increasing costs in O&M for equipment repairs and maintenance.
